Eser Şahiner

Web Developer
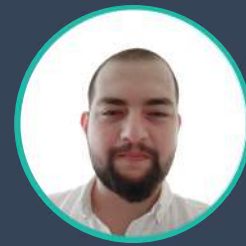

As a developer, I am skilled and adaptable, constantly seeking to expand my knowledge of cutting-edge technologies. My primary goal is to identify effective solutions to complex challenges, and I am fully dedicated to every stage of the web application development process, from design to deployment. With unwavering commitment and a drive to succeed, I am confident in my goal to achieve outstanding results on any project.

✉ esershnr@gmail.com   📱 (531) 295 85 16   📍 İstanbul, Türkiye   🌐 esersahiner.com

Due to my lack of experience, I hope to be in a group hierarchy to step up every single time I learn something from my superiors or any improvement. I want to be in a position where I can continuously improve my skills and abilities in my work and maintain motivation with my colleagues. To achieve my goals, I would like to do all I mentioned before in a stress-free and enjoyable environment.

PERSONAL PROJECTS

HomePage – *Website – 2022* ↗
- *Dynamic, animated, and multilingual website developed using several different libraries which I use currently to present my portfolio.*

RD Rehber (Guide) – *Website – 2021* ↗
- *A Website that includes localized multiplayer in-game ability card descriptions, created and aims to guide the Turkish local gamers who play the game and the ones who play yet don't have the required level of English to understand the game's ability cards.*

Github Finder – *WebApp – 2021* ↗
- *A WebApp developed with ReactJs to find and review GitHub user accounts and their repositories.*
